

Your League is looking to get communications directly to you at your divisions by introducing the E-Bulletin Boards! This is a pilot program whereby large flat-screen TVs will be set up in a high-traffic area at your station showing pertinent, valuable and interesting information. This information will include (but not limited to):

- Your division's delegate(s)
- Your division's TBL contributor(s)
- The League Director assigned to your division
- Membership Outreach Day scheduled for your division
- Upcoming events
- Announcements/photos
- General division news

Right now, we have four divisions set up (Southwest, Olympic, Northeast and Mission) on a testing basis to see how well it works, how the content upload is working and to get feedback from the officers to see what they think of the E-Bulletin Boards and for officers to suggest ideas for more content.

If this initial rollout is successful, the plan is to set up E-Bulletin Boards in all 26 patrol divisions by mid-2018.

We would like to extend a special thanks to newly promoted Lt. **Ted Urena** (ERG) for his assistance in getting this pilot program started.

If you need anything 24/7, don't hesitate to reach out at MarkCronin@lappl.org or on my cell at (661) 510-6129.

Northeast's E-Bulletin Board courtesy of the League.

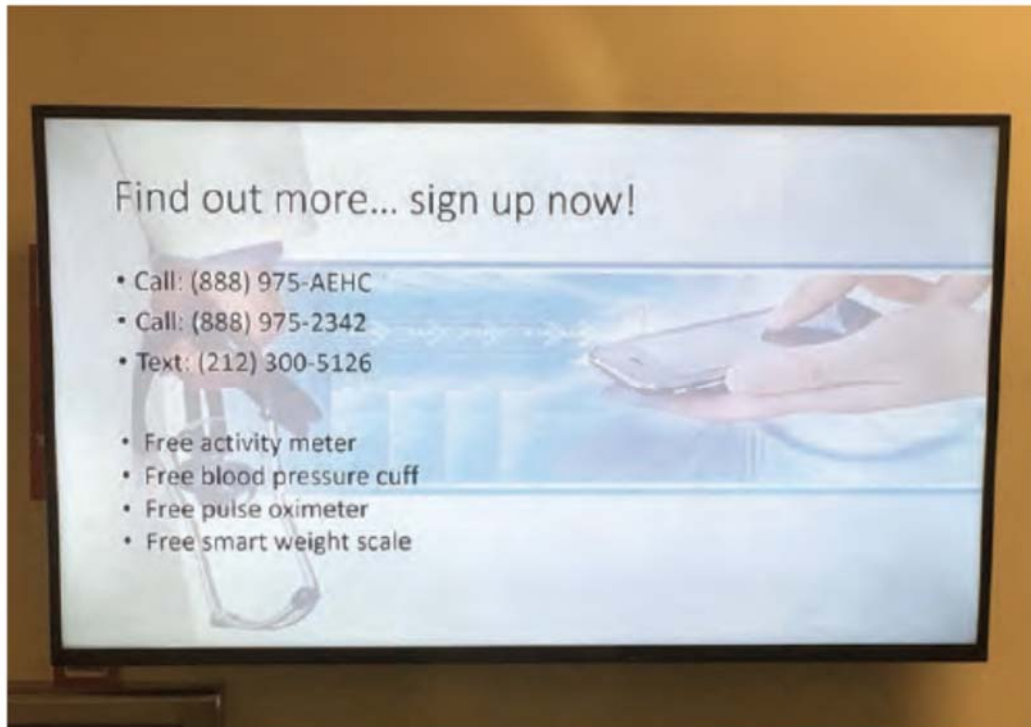

Olympic's E-Bulletin Board hangs prominently in a high-traffic area to keep you informed.

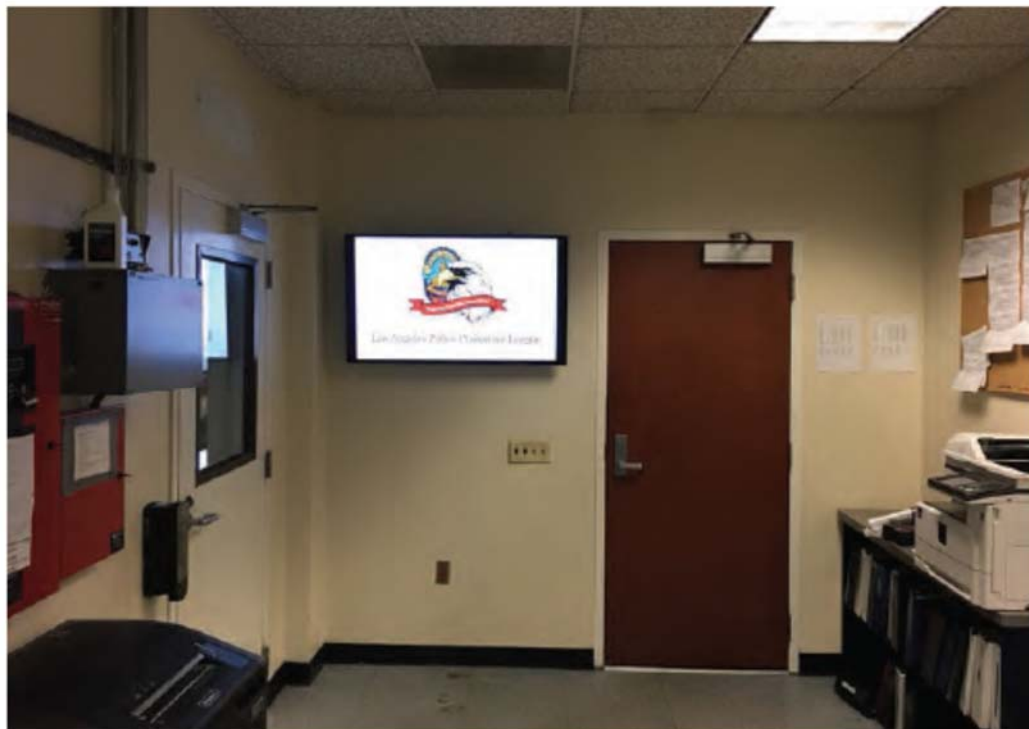

Mission Area's E-Bulletin Board will be another way to connect straight to the members.

Northeast's E-Bulletin Board will keep you informed on the latest League information and events.

Expect the latest from the League displayed on Olympic's E-Bulletin Board.

Southwest's E-Bulletin Board is one of four within the Department in the testing phase.

Mission Area's E-Bulletin Board is just one of many options to stay current with League-related news.
